DETAILED ACTION

Claim Rejections - 35 USC § 112¹

Claims 1-11 are rejected under 35 USC 112, second paragraph, as failing to particularly point out the claimed invention. The "if desired" phrases found in the claims render the claims indefinite. It unclear if this requires some kind of mental step. If the one carries out the claimed invention without the required desire, would this be outside the purview of the claim? It is suggested that an "optionally" type phrase be used in place of the "if desired" phrases.

Allowable Subject Matter

Claims 1-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action. It is noted that the prior art of record is not suggestive of polycarbodiimide compounds derived from amino carboxylic acids.

Conclusion

The references are cited as of interest.

¹ The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 112 that form the basis for the rejections under this section made in this Office action:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same, and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
